

12 December 2017

Dear Parents/Carers

Thank you for your patience and support regarding the closure of the school over the last two days owing to the severe weather. The safety of our students is paramount and the heavy snow and freezing conditions along with the difficulties with public transport were the key reasons for the closure of the school.

The site staff have been working hard clearing the site and gritting pathways to make it safe for all students to return on Wednesday at the usual time. There will though still be snow on the ground. The cold weather is expected to continue so I would advise students to dress appropriately for the weather wearing coats, hats, gloves and sensible footwear as many students arrived at school on Friday without these.

We will also be giving students safety advice against throwing snowballs as the snow will now be mixed with salt and grit. Please could you support us by speaking with your child in advance regarding this.

Internal exams that were planned for Year 11 will now be re scheduled and students advised of the new dates as soon as possible.

Please read the letter for parents on the website from Richard Gill CEO of the ATLP which gives information regarding an additional training day on Tuesday 9th January.

Yours sincerely

Mrs T Peters  
HEADTEACHER
