

23 June 2021

Dear Parents and Carers

School Cloud

We are writing to inform you that in the next Academic Year 2021-2022 we will be launching a new Parents Evening system using School Cloud. As you are aware due to ongoing Covid restrictions we have been unable to hold traditional parents' evenings and we have therefore looked at a more efficient way of operating parents' evenings going forward. School Cloud has been introduced in other schools within the MAT and has proven to be very successful.

School Cloud allows parents evenings to be held online and operates in a similar way to traditional evenings, allowing 5 minute video appointments with teachers. School Cloud can be accessed through a variety of devices, for example mobile phone, iPad, tablet, laptop.

In order for us to facilitate this effectively, it is really important that parents and carers provide the school with an email address as this will be required to verify your identity. In addition, website links, booking information and updates will also be sent to this email.

If you have not provided school with an email address, can we ask that you do this as a priority before the end of the summer term by emailing enquiry@jws.bham.sch.uk.

Yours faithfully

Mrs L Norton
Assistant Headteacher Assessment & Curriculum
