

February 2022

Dear Students, Parents and Carers

Examinations 2022

We have reached the end of a very busy half term and I hope that we all manage to enjoy our well-deserved break.

I am sure that you will have seen in the news over the last few weeks that the Summer 2022 exams are going ahead, and that each awarding organisation has provided advance information on the focus of the content for these exams in the majority of subjects at GCSE, AS and A level.

The full guidance from JCQ can be found [here](#), alternatively <https://www.jcq.org.uk>.

This is very helpful to students as it supports them in ensuring that they focus their revision on the most important content. After half term we will be helping students to plan their revision utilising as much time as possible. There will be a number of focused revision and tutoring sessions running.

We have collated the advance information for the exam boards we use at GCSE, AS and A level. You can access this here:-

This information is also useful for teachers as it allows them to review and reteach key topics. All subject areas are currently reviewing their teaching, learning and assessment plans to ensure that we maximise this information.

We look forward to working together with the students over the next few months to ensure that they are well prepared and can be successful. We want to see them turn their true potential into reality.

Yours sincerely

Ms T Richards
Deputy Headteacher
