

Dear Students Parents and Carers

I hope that you are well and that you have had a restful break. I am writing to you with some additional information regarding the application of the advance information released by the exam boards. I have been very impressed with the way in which the students have been engaging in their learning in lessons. Many of them have been accessing the tutoring and revision programmes offered in school. A copy of our current revision offer is below. We would encourage all students to take advantage of this as it will develop their exam application skills.

As you are aware, the examinations will be taking place this Summer. We have taken the advance information supplied by the exam board to develop bespoke revision and reteach schemes within each subject area. This will allow teachers to use lessons to assess students and unpick key misconceptions more forensically than a set of mock exams. For some subjects where the information is very specific such as Science, Maths and PE, we have developed revisions programmes that students can use to focus their revision on the right areas.

**Revision Programmes:-**

[GCSE Combined Science Trilogy – Foundation](#)

[GCSE Combined Science Trilogy - Higher](#)

[GCSE Biology - Higher](#)

[GCSE Chemistry - Higher](#)

[GCSE Physics - Higher](#)

[GCSE Maths Topic List - Foundation](#)

[GCSE Maths Topic List - Higher](#)

[GCSE PE](#)

The GCSE examinations run from 16 May until 28 June. An overview of the external examination timetable can be [found here](#). Students will shortly be receiving individual examination timetables which they can use to plan their revision. We will be looking at how we can support students with focus sessions throughout the examination period to ensure that we optimise their teaching time.

Please do not hesitate to contact Miss Noreen if you need any further information.

Yours faithfully

**Ms T Richards**  
**Deputy Headteacher**
