Staff and Visitor Guidance February 2023

**You must report any concern you have about a student's welfare or safety to a DSL.
Safeguarding is everyone's responsibility.**

The identities of our DSLs in each school are displayed in prominent positions around the school, in reception and below.

A DSL will always be available

A DSL may be accessed via School Reception

Contextual Safeguarding

We recognise the importance of considering the context of our school in order to fully assess and reduce the risks to our students. As such, we are aware of the risks presented to our children in our local environment. We know that extra familial harms take on a variety of different forms and children can be vulnerable to multiple harms including child on child abuse, sexual and criminal exploitation and serious youth violent crime and online abuse.

We recognise the importance of considering the context of our school in order to fully assess and reduce the risks to our students. 80% of the school cohort travel a considerable distance to attend school. The vast majority of students travel across the city, on public transport, from Erdington, Castle Vale and Kingstanding areas of Birmingham. Only 20% of the school cohort is from the immediate locality. This directly impacts on our children with all forms of exploitation; criminal and community safety are significant concerns.

Known risks in our community include higher than national rates of deprivation, including families experiencing financial hardship from high unemployment, high levels of poverty, neglect, increasing number of domestic violence incidents, and mental health concerns. Youth violent crime and exploitation risks are exacerbated with students' use of public transport to travel to school and the close proximity to Birmingham and the town centre of Sutton Coldfield.

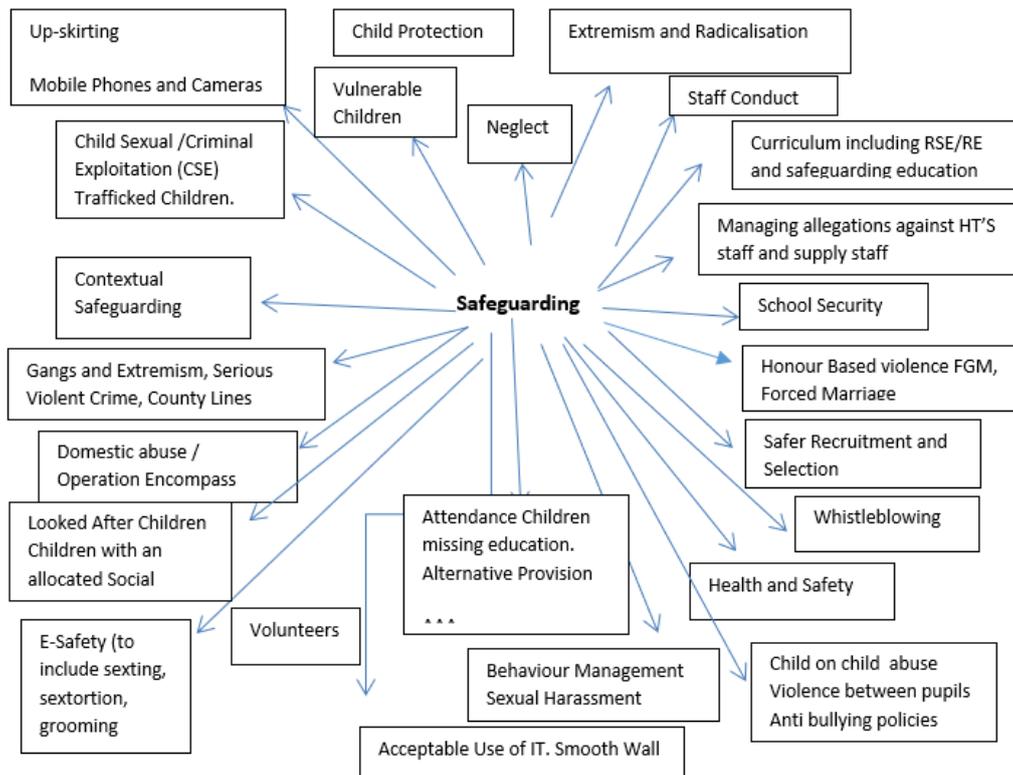

The school population is highly mobile because we are one of only two schools in north Birmingham with spaces. We admit an exceptionally high number of fair access students and students new to the country. This impacts on the cohesiveness of our community. We also have a high number of students with special educational needs. We work with a range of agencies to improve the outcomes for our students including the neighbourhood police and utilisation of links with the school liaison officer to educate the students in choices around knife crime, gang involvement and exploitation. We engage with wider services and agencies to provide interventions and support such as counselling, emergency first aid, speech & language therapy, family support and behaviour support. We have a number of THRIVE trained staff who work in our inclusion team to meet the high level of need within the school.

What is Safeguarding?

Remember Child Protection is everyone's responsibility regardless of role or status.

Section 11 of the Children Act 2004 places duty on agencies to ensure that their functions are discharged having regard to the need to safeguard children and promote their welfare; by safeguarding and promoting welfare we mean:

- Protecting children from abuse or neglect.
- Preventing impairment of the children's mental and physical health or development.
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care; and
- Creating opportunities to enable children to have optimum life chances in adulthood

Child Protection is the responsibility of everyone. Report concerns to the right person, in person. For additional information please see policies and information on the school or the West Midlands Safeguarding Children Board website or in Keeping Children Safe in Education 2022.

Child protection is just one aspect of safeguarding, one that we as a Partnership take very seriously. It is much better to share a concern and be wrong than not share at all.

Remember there are many forms of abuse including extra familial abuse and intra familial abuse. We must be alert to them all. We must imagine the unimaginable. It could, and does, happen here!

Safeguarding and promoting the welfare of children is everyone’s responsibility.

If you have any concerns about the welfare or safety of a child in our care, you must share it.

You must use the system in your school to

- Refer immediately
- Inform the right person in person
- Do not email or leave a voicemail
- Record the date, time and details of discussions
- Keep copies
- In the first instance it is best to share your concerns with the DSL of the school that the child attends. In the unlikely event that they are unavailable, then report this to the head teacher or Leadership group member. In an emergency phone the Police or contact Children’s Social Services directly
- Determining need – questions to ask yourself
- Is this family coping?
- Is the child’s need being met?
- Have I ensured that the child has had an opportunity to speak, be heard and listened to?
- What are the relevant factors at the core of the child’s needs? Do I have a picture of the family as a whole, their parental capability and environment factors?
- Have I used this guide to prompt me to think more clearly and understand the situation?
- Have I considered any previous history of support, service involvement and the current risk and protective factors within the family? Think about what the child’s experience really is?

- Am I sure about my understanding of the information? If not, take advice in the first instance from a DSL?
- Have I discussed my analysis of the identified need with other professional involved with the child to achieve a more holistic approach?
- Have I discussed my concerns with the child and their family and offered advice and support?
- Have I asked the parents for written consent to my involvement, my assessment and/or referral and to information sharing to help engage services quickly?
- Have I been professionally curious?
- Have I thought about the needs of any sibling?
- Have I considered the context of this concern?

Remember – always see things from the child’s point of view.

Types of Abuse

There are many types and forms of abuse. These include physical, emotional, sexual, and neglect. We also need to consider exploitation, online abuse, radicalisation and extremism, honour-based abuse, and CSE, CCE County Lines, serious violent youth crime and Modern-Day Slavery, child on child abuse including sexual violence and harassment and other forms of exploitation. We also recognise the links between vulnerability, including poor mental health and abuse.

We also recognise that mental health problems, can in some cases, be an indicator that a child has suffered or is at risk of suffering abuse. We are aware of the rise in mental health issues during the pandemic linked to an increase in anxiety depression and isolation.

We are also aware of the increased dangers of online abuse due to often increased and unsupervised internet access This includes child on child abuse and sexual abuse.

We also recognise the adverse impact of domestic abuse on children. Further details can be found in John Willmott School Safeguarding and Child Protection Policy.

The following may be indications of abuse, but this is not designed as a check list. It must also be acknowledged that these indicators rarely stand alone and that a child may exhibit all or just a few of these

Indicators of Vulnerability to Radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and other forms of extremism leading to terrorism.

Students may become susceptible to radicalisation through a range of personal, social and environmental factors. It is vital school staff are alert to these indicators.

- Identity crisis – the student is distanced from their cultural religious heritage and experiences discomfort about their place in society.
- Personal crisis - this may involve experiencing family tensions, a sense of isolation, low self-esteem. Students may become disassociated from existing

Advice on Sexting

Sexting is the sharing of images, videos of text by children under the age of 18 that are of a sexual nature or are indecent (including pseudo images) and includes revenge porn. Children need to know that this maybe a criminal offence. Early Years settings should follow the guidance in EYFS re mobile phones and cameras.

- Follow normal safeguarding procedures
- Consider ‘balance of power’
- Seek advice if unsure or persistent

Cyber Bullying

- Includes name calling, unpleasant texts, emails via social media or mobile devices
- Incidents should be recorded in line with school policy and sanctioned under John Willmott School Behaviour policy

Seek advice if unsure or persistent

For additional information on forms of abuse see Annex B of KCSIE 2022

Child on child abuse

Children can abuse other children in a variety of forms including physical, sexual and emotional abuse.

Sexual violence and harassment can occur between two children of any age or sex. Staff should be aware that some groups are potentially more at-risk including girls, children with SEND and LBGT children.

Criminal or not? The balance is between natural curiosity/risk taking/exploring relationships and deliberate, harmful, spiteful and illegal. (See 'Sexting in Schools and Colleges – Responding to Incidents to Safeguard Young People (UKCCIS2016))

How to deal with the incident

- Follow normal safeguarding procedures.
- Tell a DSL
- Only view images if authorised by the Headteacher; only search if conducted by a member of the same sex (female teacher to view girls' phone, male teacher to view boys' phone)
- Do not download or ask for image to be sent, nor should you print any images
- Always seek advice and guidance

Children with a Disability

When working with children with disabilities, practitioners need to be aware that additional possible indicators of abuse and / or neglect may also include:

- A bruise in a site that might not be of concern on an ambulant child such as the shin, might be of concern on a non-mobile child
- Not getting enough help with feeding leading to malnourishment
- Poor toileting arrangements
- Lack of stimulation
- Unjustified and / or excessive use of restraint
- Rough handling, extreme behaviour modification e.g., deprivation of medication, food or clothing, disabling wheelchair batteries
- Unwillingness to try to learn a child's means of communication
- Ill-fitting equipment e.g., callipers, sleep boards, inappropriate splinting
- Misappropriation of a child's finances
- Inappropriate invasive procedures.

It is also worth noting that children with additional needs may be more vulnerable to abuse. This may include disabled children, as mentioned above, as well as those with special educational needs, those with health concerns including mental health, those recently bereaved, homeless and those living with domestic violence or drug/alcohol abusing parents or in poverty.

Responses from parents

Research and experience indicate that the following responses from parents may suggest a cause for concern across all four categories:

- Failure to engage or attend appointments
- Delay in seeking treatment that is obviously needed
- Unawareness or denial of any injury, pain or loss of function (for example, a fractured limb)
- Incompatible or inconsistent explanations offered, several different explanations or the child is said to have acted in a way that is inappropriate to her / his age and development
- Reluctance to give information or failure to mention other known relevant injuries
- Frequent presentation of minor injuries
- A persistently negative attitude towards the child
- Unrealistic expectations or constant complaints about the child
- Alcohol misuse or other drug / substance misuse
- Parents request removal of the child from home
- Violence between adults in the household.

Confidentiality

- Confidentiality cannot be promised to the child. This should be made clear to the child early on in any disclosure.
- Information should be shared with a designated person who will decide who else should know and what to do.
- Staff should be vigilant when sharing personal and confidential information. All confidential information should be shared on a "need to know" basis and via a secure mechanism. This is

particularly relevant when sharing information electronically with a third party such as Social Services, NHS and CAMMS. If you are unsure, please seek guidance.

- Additional information and guidance can be found in The ATLP Green School GDPR Data Protection Policy.

How to Respond to a Disclosure

- Do listen carefully to what the child is saying
- Do take the child's statement seriously
- Do write down as soon as you can exactly what the child said after the event
- Do not get the child to write it down or repeat it
- Do tell the child they are good to tell
- Do tell the child it is not their fault
- Do take care of yourself and work out how you are feeling
- Do ask open questions.
- Do not panic
- Do not rush off and find someone else to listen
- Do not promise to keep things secret
- Do not lie to the child or say everything will be fine now they have told someone
- Do not make judgements of any kind about the abuser especially if a parent
- Do not ask lots of detailed questions
- Do not press for answers a child is unwilling to give
- Do not ask leading questions.
- Record any injuries on a body map where appropriate
